Colonel G.G. Bewoor;

D.O.No.0010/48/~~HQ~~, NCC,
National Cadet Corps Director,TD,
(Ministry of Defence),
Government of India,
NEW DELHI, 19th November, 1948.

Dear,

I had sent you, on 11th June and 28th July 1948, D.O. letters No. 0010/48/NCC, showing the financial cost of raising, equipping and running the National Cadet Corps Units being raised in your Province or State. I send a relevant list of arms, equipment and vehic required for Technical Units, with their cost, for those provinces which are raising those Technical Units. This cost should be added the previous totals.

2. You will appreciate that it was not possible to cover all the items for which money would be required. There are certain item which I presumed would be provided by the College authorities but ha now to be paid for; while there are other items which have come up after the Officers Commanding got into position and started organi Senior Division Units. Most Provinces have met these demands as rai from time to time by the Commanding Officers. It will not be possib for me to state exactly how much each item will cost. We are, howev including in the Regulations all these items and leaving it to Provi cial or State Governments to work out the cost, depending on the pri and wages of the items concerned. There are certain of these items, the sanction of which will be left to the discretion of Provi cal/ State Governments.

For Senior Divisions Units At Discretion of Provincial Governments.

(i) Civilian Cleaners - at scale of 1 Cleaner per vehicle if such person is sanctioned for provincial State Transport Vehicles.

(j) Clothing for Laskars, Peons, Civilian Drivers and Cleaners - to be given at discretion Provincial Governments.

(k) Typewriter - to be supplied to Unit Headquarter Office t discretion of Provincial

(l) Telephone - be installed in Unit Headquarters Office at discretion of Provincial Governments.
